Time line for Refurb Climate Café

1. Welcome to ACA Climate Café No # . (While the title did not specify this, the café is going to concentrate on granite stone buildings) Adam

2. Housekeeping and future cafes Adam

3. Today's programme: Adam

    a. BP will do a 5 minute introduction on the task ahead
    b. DM will do 5 mins on the unique features of granite buildings
    c. Adam will the show a video of the first of two houses we are considering and thermal images of the walls
    d. We will then discuss what should be done, with suggestions and comments from you the audience
    e. When we have exhausted the first house, Adam will show the video of the second house, in a conservation area, and we can discuss it.
    f. Bob and Dave will then do a summary of the issues raised
    g. NB: No video will be produced of the event, but the recording will be used to make a transcript of the event.
4. Bob to do his 5 mins
5. Dave to do his 5 mins
6. Adam to show the video and thermal images
7. Open for discussion

Issues that may be raised

Issues that may be raised include heat pumps, U-values, funding available, government targets, etc. Dave can handler some of these. In the audience there is George Allan, who has just had a HP installed and Matt Clubb, who has expertise in the subject. There may be others with information in these topics.
