Aberdeen Climate Action

Role: Action Team Member

Time commitment	Support	How to apply
Flexible, roughly one half-day per month for attending an event, plus around 1–2 hours monthly for planning and preparation.	You will be supported by the Action Team and Team lead. Tasks can be shared across the team.	Fill in our online form, or email us at info@aberdeenclimateaction.org

Description:

As an Action Team Member with Aberdeen Climate Action (ACA), you'll be part of a dynamic group that brings our climate work to life through hands-on "action events" like beach cleans, tree planting, and community engagement days. These events keep ACA visible and active in public spaces — demonstrating our commitment to practical, local climate action while strengthening community connections.

How does the role help ACA?

The Action Team helps turn ACA's climate work into practical, visible activity in the community. Members help organise and deliver events such as beach cleans, tree planting and community engagement activities, helping ACA connect with people across Aberdeen.

What does the role involve?

- Help plan and prepare for action events, liaising with the Council, community groups and other stakeholders where needed.
- Promote events through word of mouth, community notice boards and other platforms.
- Attend events and help with practical arrangements, logistics and participants on the day.
- Help with follow-up, feedback and ideas for future events.
- Take on tasks according to your interests, availability and the needs of the team.

Skills/experience needed for this role

- Enthusiastic, community-minded and willing to take initiative.
- Well-organised and reliable.
- Comfortable communicating with a range of people.
- Happy working as part of a team or independently.
- No previous experience needed, just a willingness to get stuck in and support local climate action.
